

CELEBRATION'S - 100, 63 & 20 YEARS

The old & the new!

The weather report said: "Cloudy with the odd chance of showers". oh! how wrong they were, sunshine - glorious sunshine everywhere. This was the start of our day out to Longbridge to celebrate 20 years of the Montego & 21 years of the Maestro, with MMOC, their celebrations coincided with the 63rd anniversary of Lord Austin's death, so later that day they were driving to the nearby cemetery to lay a wreath out of respect for this historic gentleman.

The old & the new2!

As I said, the day was gloriously sunny and we all parked up when we arrived, we then proceeded to file into the Visitor Centre and have a conducted tour around the Museum and look at the replica of Lord Austin's 1948 office.

A look around the museum

It was then time to go back outside for a photo shoot and general 'mooch' around the modern day MG-Rover cars on display at Longbridge.

The 5Millionth Rover

The MMOC drove off to the cemetery and then on for a leisurely afternoon picnic before returning to cut a cake to celebrate their birthday.
